

## Flytrap (outro)

Chinchilla

If you hold something  
Tightly, you kill it  
And that's what flytraps do  
Whereas if you just allow  
It to settle on your hand  
And fly where it wants  
Like a bird or a butterfly  
It'll come back and settle  
And then it's free to fly  
So the hand needs to be an open hand  
Gentle open hand  
It's about being free but  
It's not about not being loving  
Actually  
But you will kill the love  
If you crush it  
You can't do that to people  
That's not love  
That's possession
