

One Time

Chinchilla

You're an imaginary man
With a big black car
Full of self-esteem
You're a character from a land
Where the cold black hearts
Make the ladies scream
Well, I'm sick of it, man
But there's just one more thing
Before I leave
You know you're not my kinda man
But I'm, oh, so tempted
By bad for me

Why you lying? Why you trying?
Hit me with your essay
I'll say, ha, ha, ha, ha
Still, I wanna feed the hunger
Wait a second, humour me

Only wanna take you home
And fuck you, fuck you, one time
I just wanna be alone
And fuck you, fuck you, all night
Only wanna take you home
And fuck you, fuck you, one time
I just wanna be alone
And fuck you, fuck you, all night

See, I have the impulse, and it's no less, no more
I have the impulse, and it's out of control

There's a feelin' in the smoke
From the fire below
But, that's all I see
And now the flame is just a glow
And it comes and it goes
With a gentle weep
We both put in the hours
It seems such a shame
Not to rest in peace
But now it's over, call it closure
Wait a second, humour me

Only wanna take you home
And fuck you, fuck you, one time
I just wanna be alone
And fuck you, fuck you, all night
Only wanna take you home
And fuck you, fuck you, one time
Only wanna be alone
And fuck you, fuck you, all night

Why you tryna play games?
What you tryna do?
I'm not tryna play games
But am I tempting you?

I, I
I'm only human, my instincts are primal
Don't lie, lie,
Must sound familiar 'cause I'm only doing what
I said I'd do
Sorry if I tempted you

Why you tryna play games?
What you tryna do?
Why you tryna play games?
What you tryna do?
Why you tryna play games?
What you tryna do?

Touch you, touch you, one time (mmh-hm)
Touch you, touch you, all night (mmh-hm)
Touch you, touch you, one time
Touch you (you can touch me if), touch you (I can touch you), all night
