

Trigger

Chinchilla

I can play dirty
I won't have no mercy
Drop a match on my white flag, burn it down
Lay it on my grave
And I can play messy
I kinda like where it gets me
When I'm done, tie my hands and arrest me
Add it to my accolades

In your old brown eyes
Did you see me crumble? Did you hear me cry?
'Cause I'm just fine
And you just lost your mind

I'll go pour a drink, man, 'cause it's Friday
Done with thinking, just wanna party
Bet it sucks to be you, well go figure
You're the sucker who pulled the trigger
Go pour a drink man, 'cause it's Friday
Got my best friend parked in my driveway
While I sip gin and juice and fuck with ya
Just remember who pulled the trigger

I can be nasty
Shoot you down in a backstreet
Run the town, favorite blonde vigilante
Blood on my guilty hands
But you just not on my mind much
You're seeing red, I'm seeing lilac
I just wanna lie low, live lavish
Guess that wasn't part of your plan

But tell me in your old brown eyes
Did you see me crumble, did you hear me cry?
'Cause I'm just fine
And you just lost your mind

I'll go pour a drink, man, 'cause it's Friday
Done with thinking, just wanna party
Bet it sucks to be you, well go figure
You're the sucker who pulled the trigger
Go pour a drink man, 'cause it's Friday
Got my best friend parked in my driveway
While I sip gin and juice and fuck with ya
Just remember who pulled the trigger

And when I'm doing bits
Just know you passed on this
You were just drama, instant karma's got you
Now you're dead, but who pulled the trigger?

I'll go pour a drink, man, 'cause it's Friday
Done with thinking, just wanna party
Bet it sucks to be you, well go figure
You're the sucker who pulled the trigger
Go pour a drink man, 'cause it's Friday
Got my best friend parked in my driveway

While I sip gin and juice and fuck with ya
Just remember who pulled the trigger

Who pulled the trigger
Who pulled the trigger
