

C FREESTYLE

Chipmunk

Ask any body born after 95
Who made them wanna jump on Grime?
They'll tell you it's me
Been around since Flukes made the beat
I had hits before they had bars
Can't cap on who not on me
Ca if I cap at you we gon' see
Used to be dargs
But now they some pagans
Oh well guess that shits meant to be
Threats in life nothing new
Only fear of God 'ow ya mean ... Ahh
I ain't one of them olders hating
I tell Central that I rate him
His progressions motivating
Get off your arse and strap 2 bars
Ca nobody's too big for a pagin'
Still filling up pages
You diss me at twelve
Could be corn by six
It don't take man ages nah
Like wagwan doe?
Out in LA touch Highlight Room
See Breezy dap him up
Wagwan SHO!
Cali Gang still with Ram that's bro
Like who's hot? Who's goated?
Who's on it? Who's choking?
I ain't clashing nobody from England again
Lf we warring them other countries
I'm rolling!
On the UK talk
I opened nuff UK doors
Fed man that bit my hand
They know I bite back PAUSE
Touch me we sending bine back sure
Since '07 they so not levelling'
Go against me
That's suttu you'll never win
Everythings long when man get to pepperin'
Spun out your jewellery clothing everything!
Covered: lyrically, physically, spiritually
I don't confuse success & ability
If I did shit they would be spinning me
My man better than who? Ya killing me (lol)
Built a line in this rap ting
Chains got diamonds
Plaques got platinum
Since 15 had magic words
Hence why a nigga weren't trapping first
If I slap a verse right at your head it works
BIG MOOD kill him first
Niggas get gassed of a headline act
We all been there don't get your bubble burst
Rap's competitive and I'm wid it
Ask your favourite guy I got lyrics
Ignore funny talk when they dish it

Or just make that move and not pivot
Ca it's who? BIG C
Showed you 'bout bars
Showed you 'bout speed
Showed you 'bout charts
Showed you 'bout cheefs
Shooting vids in the petrol station
Tryna snap love that cc me
When you wanna improve who do you pree?
Still learn all my rhymes on this weed
Fitness on this mic I get lean
Who don't want it with Chip? Sips tea
I love DBE, I love Central Cee
I got a couple hits but loving riding beats
The way I make you listen feel like Unknown T
I been cooling, calming, checking rappers gwarning
Better hit your vape you don't want smoke with me...
Nuh-uh
Wake the fuck up
LOL
Like Eddie said
Touch mic like I been eating my eggs
