

My Way

Chipmunk

Baby, won't you come my way?
Got something I want to say
Cannot keep you out my brain
But first off I'm a start by sayin' this, aye
All headshots if you think you could take my bitch, aye
And I'm too turnt, when I shoot, swear I won't miss, aye
Ba-Baby, won't you come my way?
Baby, won't you come my way?

Yeah, she said that she wanna turn up
Said I wanna turn up too
See me in a Cash Motto party
Paw Gang, turn up crew
She said she wanna go studio
Took her to my wardrobe room
Told JC set the mic up
Chippy don't need no booth
Nah, Chippy don't need no hoes
Chippy don't need no friends
Cuh when I needed everyone most
That is when everyone left
Nah, worldwide know about Tottenham man
You can't fool my ends
All I need in this life of sin
Is love, my engineer and a pen
It was just me and my amigos
When I came back from the future
Cause them man sound like Migos
Them man sound like Future
But them man can't be Migos
Them man can't be Future
Can't do rap and still do grime
So fuck off, can't be Chipmunk either
I've had niggas come at me
Cause I make songs for the women
Should've seen him a couple months later
Tryna make songs for the women
Hypocrites, gotta kill 'em
On all types of riddims
Peng tings come my way
Cuh they know say the mandem's winning
Look at the vibe I'm bringing
Look in my eyes, I'm missing
Look in my heart, I'm pure
It's just the times that we live in
Niggas building bridges
I commend it, I assisted, then I had the vision
Yeah, born champion, listen

Baby, won't you come my way? (Rap vs. Grime, dun know)
Got something I want to say
Cannot keep you out my brain
But first off I'm a start by sayin' this, aye
All headshots if you think you could take my bitch, aye
And I'm too turnt, when I shoot, swear I won't miss, aye
Ba-Baby, won't you come my way?
