We all know the money don't sleep
So I chase M's while y'all chase Z's
Swimming in money these pockets run deep
New chick ass softer than my Maybach seats
Sipping D'USSE till we can't stand up
Ride with me get your passport stamped up
Stay down with me we can make magic
Keep that body shape like a Coca Cola classic

We only live once better live it up
Can't compete they bank accounts ain't big enough
Y'all trying too hard I'm having fun
Name another rapper with a 20 year run
Living everyday like it's a party dawg
Every other day is like Mardi Gras
I let the money talk so my talk never cheap
Paid the cost to be the boss better check my receipt

Stepped in, flex in
VIP face no guestlist
Check what, check this
Size zero motor no breasting
Forty two, or a zoo
Stacking on tequila you know how we do
So loosen up, bust a move
Bands a make her dance chippy got the juice
South of France, party in Cannes
Party in Miami, party in the ends
Dressed in all white, looking like a lion
Never got a stiff face, me I do my dance
They ain't got the vibe (we got)
Original classic (Reebok)
Young is so G up in the spot
In ten years from now we are still be on top

Flex, when unstoppable meets phenomenal then bring out the cool we flex
Like notes to the rule we wrote what a do take them back to school then flex
Build it up that's the clue
Show no fear watch great come through
Halls come in, big size wins
But before we begin, understand something
This is
