Own World

Chipmunk

Mubz got beats
Yo

Zoobie in my mouth, I'm in my own world
Thought she was the one, now she my old girl
"Can you take me on a date?", the answer's no, girl
I can't trust these bitches, give my heart to no girl
I've been so surrounded, I still feel alone
Switch my phone on plane mode, that means leave me 'lone
She been tryna link, I'm in my own world
Can't trust these bitches, give my heart to no girl

I can't name a bill that I would split with you
But I can't give you my heart, it might get split in two
Been goin' through sticky times, been rollin' sticky food
Would you rather pick and choose, or rather stick and lose?
Don't put my trust in dawgs, don't put my trust in girls
See man dem leave their dawgs and put their trust in girls
Don't ask me who I love, just understand I love myself
Me, I put my trust in God and I put my trust in self
Been tryna level up while you been tryna settle down
Got my powers in my palm, I've come to far to settle now
So what the fuck I want with feelings? Been tryna focus on these pounds
She might wake and wanna leave me, music never turns me down
Yatty's want attention, please don't interrupt, I'm zoning
Writing on my iPhone, I ain't tryna see my phone ring
I don't see my wedding finger ever rocking no ring
Running to the money like a trapper when his phone rings

Zoobie in my mouth, I'm in my own world
Thought she was the one, now she my old girl
"Can you take me on a date?", the answer's no, girl
I can't trust these bitches, give my heart to no girl
I've been so surrounded, I still feel alone
Switch my phone on plane mode, that means leave me 'lone
She been tryna link, I'm in my own world
Can't trust these bitches, give my heart to no girl

Perco-sex, Percocet while I reminisce
I was broke before, but now there's money everywhere
Baby girl, I'll teach your brother how to celebrate
I was trapped, I had a coke in a mountain, Everest
I just decided to ride on you
Keep this pole on me, broski, he keep one too
And I know you in your feelings the way you're going through my phone, girl
And the way these DMs is gonna break your heart gonna really leave you broke
n
I'm just tryna smoke this pound of weed, I'm in my own world
I been telling God protect me deep inside this cold world
Real fucking trap niggas, I only love my stove girl
Last night I fucked a model bitch and I hope she never tell

Zoobie in my mouth, I'm in my own world
Thought she was the one, now she my old girl
"Can you take me on a date?", the answer's no, girl
I can't trust these bitches, give my heart to no girl
I've been so surrounded, I still feel alone

Switch my phone on plane mode, that means leave me 'lone
She been tryna link, I'm in my own world
Can't trust these bitches, give my heart to no girl
