

# Grave

Chloe Adams

Oh no I've been so bad  
Thought things I can't take back  
But I want what I can't have  
'Cause I can't have it

Now I'm drowning in the sea  
Of my secret jealousy  
This never used to be me  
But it's a habit

Oh it seems  
You live my dreams  
The whole crowd screams tonight  
But I'm in town  
To steal your crown  
I see my name in lights

Right now I'm your slave  
But one day I'll be dancing on your grave  
You motherfucker you might think you're great  
But one day I'll be dancing on your grave

You got it all  
You got it all  
A part of me can't wait to watch you fall  
Right now I'm your slave  
But one day I'll be dancing on your grave

Everything has a price  
Even in paradise  
I see you with my own eyes  
Abusing power

Oh I know  
You thought this show  
Would last another night  
But I'm in town  
To steal your crown  
I see my name in lights

Right now I'm your slave  
But one day I'll be dancing on your grave  
You motherfucker you might think you're great  
But one day I'll be dancing on your grave

You got it all  
You got it all  
A part of me can't wait to watch you fall  
Right now I'm your slave  
But one day I'll be dancing on your grave

Watch me dance like  
Watch me dance like

Right now I'm your slave  
One day I'll be dancing on your grave  
You might think you're great

Don't you, don't you?

Right now I'm your slave  
But one day I'll be dancing on your grave  
You might think you're great  
But one day I'll be dancing  
Dancing on your grave
