

You live in the silence
In between my mindless dreamin'
You know I wish we could fix how

You and I were liars
Nightly startin' fires
Knew we couldn't hide from our
Days were numbered

I let it hurt 'til I couldn't feel a thing
Now I'm picking up the pieces
You couldn't stand to watch
While we played the part
Fell apart beneath the surface
I know we felt right
Holdin' on despite
What we both knew

It was nothin' special
I loved your attention
You loved how I paved a way for you to
Use me to forget how
Broken you'd been left
Now I won't turn and let us both hide from real life

I let it hurt 'til I couldn't feel a thing
Now I'm picking up the pieces
You couldn't stand to watch
While we played the part
Fell apart beneath the surface
I know we felt right
Holdin' on despite

Lie to me again
Lie to me again
I'll convince myself

I let it hurt 'til I couldn't feel a thing
You couldn't stand to watch
While we played the part
Fell apart beneath the surface
I know we felt right
Holdin' on despite
What we both knew
