

Work

Chloe Howl

Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep 'em waiting if you know they're keen
Teach 'em patience if you know they're keen
Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep em waiting if you know they're keen
Teach em patience if you know they're keen

What you thinking, are you in it?
Cause they've been watching us all over all night
Wait a minute, take a second
Cause we ain't nobodies for nothing tonight
And though you may be sugar sweet in that suit and tie
If you're quick to deceive, best believe that we know your kind

Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep 'em waiting if you know they're keen
Teach 'em patience if you know they're keen
Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep em waiting if you know they're keen
Teach em patience if you know they're keen

We're on a mission, do you get it?
I hope you ain't afraid to watch us take flight
Take a picture, did you see it?
Confidence is on a hundred tonight
You wanna be in between myself and I
Let's see what you feel, if it's real when I take my time

Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep 'em waiting if you know they're keen
Teach 'em patience if you know they're keen
Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep em waiting if you know they're keen
Teach em patience if you know they're keen

Let 'em work!

Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!
We'll keep 'em waiting if you know they're keen
Teach 'em patience if you know they're keen
Let 'em work!
Cause if they want a fantasy, they can work for ya!
Somebody better show that they work for ya!

We'll keep em waiting if you know they're keen
Teach em patience if you know they're keen

Let 'em work!

I could be everything you wanted and I'm right here, right here

You ain't everything I needed though you're right here, right here

Let 'em work!

Let 'em work!
