I play my music too loud
And I really wanna see you right now
But your head's up in the clouds
And I really don't know why

You keep playing in my mind
Thinkin' of you all the time
Inside every cliché rhyme
Yeah you're under every line
Keep playin' in my mind
Thinkin' of you all the time
Inside every cliché rhyme
Yeah you're under every
(Now you're under every)

Cdbaby, wish that you would date me
All I wanted is a yes or a maybe
Cdbaby, think I'm going crazy
Puttin' you on repeat, listen in the backseat
Cdbaby, wish that you would date me
All I wanted is a yes or a maybe
Cdbaby, think I'm going crazy
All you do is play me lately

Now some songs make me sick
To my stomach when I hear 'em
How'd I let you ruin
One of my favorite albums

You keep playing through my mind
Thinkin' of you all the time
Inside every cliché rhyme
Yeah you're under every line
Keep playin' in my mind
Thinkin' of you all the time
Inside every cliché rhyme
Yeah you're under every
Now you're under every

Cdbaby, wish that you would date me
All I wanted is a yes or a maybe
Cdbaby, think I'm going crazy
Puttin' you on repeat, listen in the backseat
Cdbaby, wish that you would date me
All I wanted is a yes or a maybe
Cdbaby, think I'm going crazy
All you do is play me lately
