

## Dream About U

chloe moriondo

The flowers are grey and pink  
And all I remember thinking  
Was this is how it's supposed to be  
Now that I've seen your face  
My mind goes to a stupid place  
But I hope you'll remember me

None of this will make sense  
I can hide through words all I please  
But even when I'm six feet underground  
You still got me on my knees

Dreams cannot compare  
To see you standing there in front of me  
It's crazy how much I found  
That love for you to stick around  
And to stay with me

And none of this will make sense  
I can hide through words all I please  
But even when I'm six feet underground  
You still got me on my knees  
Yeah, you still got me on my knees
