

# Killbot!

chloe moriondo

I'm a girl in a world, everything is made of metal  
Iron shell full of pearls and I'm pretty as a petal  
But you're unaware, got you preoccupied  
We're right there, really wanna see you terrified

Tripped out while you're starting fires  
Looks so pretty, I'm a deathtrap, darling  
Overloaded, poorly coded  
Can't control it, losing focus

(Oh, my God)  
You've got yourself a rogue bot  
She's gunnin' for the killshot  
Malfunctioning again, you know heads will roll  
Get ready for the end, she's irrational

Steel bones, but the outside's so warm  
Bright light in a middle of a snowstorm, oh  
Invite you in, inching underneath your skin  
And I know you'll start to wonder where did all of this begin

Tripped out while you're starting fires  
Looks so pretty, I'm a deathtrap, darling  
Overloaded, poorly coded  
Can't control it, losing focus

(Oh, my God)  
You've got yourself a rogue bot  
She's gunnin' for the killshot  
Malfunctioning again, you know heads will roll  
Get ready for the end, she's irrational

(Oh, my God)  
You've got yourself a rogue bot  
She's gunnin' for the killshot  
Malfunctioning again, you know heads will roll  
Get ready for the end, she's irrational

You've got yourself a rogue bot  
You've got yourself a rogue bot  
You've got yourself a rogue bot  
You've got yourself, got yourself
