

Manta Rays

chloe moriondo

Been trynna dream of you for so long I can't even remember
When I first decided your face was the one I wanted my mind the
conjure
I never knew manta rays were so big til' I got high and had to
google it
I'm not obsessed, the feeling's just there and I'm trying hard
to forget you
Trying hard to forget you

Your honey voice echoes in every noise and I know this is just
how it goes
I know, I know, I know, I know, I know
My therapist will tell me that it's best to let it be
But I wanna light fires, I wanna explode, I wanna be everything
you want to know

It's all for you
It's all for you
It's all for you
It's always for you
It's all for you
It's never not for you
It's all for you
It's always for you

I wanna be your shining pearl, your one in the world, the type
you wanna lean on
Wish I were something suited for that
I skip every song that won't remind me of you cause if it doesn
't-
It's not worth the time, I wish I had more time with you

I wanna be your everything
Wanna be more than what I am in general
Don't tell me that this means anything
I promise I understand

But it's all for you
It's all for you
It's all for you
It's always for you
It's all for you
It's never not for you
It's all for you
It's still all for you
