

Latching onto whatever I can get  
I don't know when I'll let go  
Catching flies with my mouth wide open  
Scratch the surface, but I'm not close  
Enough to find relief, I  
Attach to those who are filled with poison

And I swallow every word that you say  
And you're always coming over too late  
I know it's only 'cause I was the one that called you up in the first place

I use and let use  
I do, I do, I do, I do  
I use and let use  
I do, I do  
I use and let use  
I do, I do, I do, I do  
I use and let use  
I do  
Just like you

Caught you by the tail, but you bit right back  
Every time, I feel I should be used to that  
But I take the bait and drink the bottle  
Let you get stuck in my jaws and  
I can't tell whose blood is in the water  
'Cause we do it to each other

I use and let use  
I do, I do, I do, I do  
I use and let use  
I do, I do  
I use and let use  
I do, I do, I do, I do  
I use and let use  
I do  
Just like you

(Just like you)

And I swallow every word that you say  
And you're always coming over too late  
I know it's only 'cause I was the one that called you up in the first place

I use and let use  
I do, I do, I do, I do  
I use and let use  
I do, I do  
I use and let use  
I do, I do, I do, I do  
I use and let use  
I do  
Just like you
