You're my baby, my angel, I'll say it for you

I don't wanna play favorites
You're the one I want the most
You just want me to say it
I don't wanna hold it in no more
I don't wanna play favorites
You're the one I want the most
My angel, I'll say it for you
Let it out, just say it, say it
Let me know

Held you by the hand, we did a dance
Boy, I've been waiting for the day I get to step with you
Had a change of plans, with no advance
But my patience, I can stretch and make it flexible
Doing my damnest to get next you
I see 'em clearly in the rear view
Got me crossing all my exes off my list
I know you want me to say it

I don't wanna play favorites
You're the one I want the most
You just want me to say it
I don't wanna hold it in no more
I don't wanna play favorites
You're the one I want the most
My angel, I'll say it for you
Let it out, just say it, say it
Let me know

I was doing bad, gone mad
It's so amazing what a little bit of love can do
I was blowing cash, first class
I flew your mama and your auntie and your cousins too
They don't come near, they don't compare to you
I see 'em clearly in the rear view
Crossing all the options off my list
I know you want me to say it

I don't wanna play favorites
You're the one I want the most
You just want me to say it
I don't wanna hold it in no more
I don't wanna play favorites
You're the one I want the most
My angel, I'll say it for you
Let it out, just say it, say it
Let me know

I don't want nobody, see nobody
Hear nobody else, you ain't gotta worry
Boy, yeah, you got my body
Nobody do the way you do
Touch it how I like it
Nobody else compare to you
There's no doubt about it

I see you every night, yeah, when I go to sleep up in my dreams
Yeah, I think about you (Yeah)
I'll go crazy for you (No)
I don't want no other (There)
Isn't another
Please me, please me, please me, baby

Take it down (Take it down)
Shake it down (Shake it down)
Break it down (Break it down)
Oh, do it now
Do me now (Do me now)
For me now (For me now)
Love me now (Love me now)
Oh, show me how
I, feel so nice, step to the side
Watch me ride, yeah

I don't wanna play favorites
I don't wanna play
You're the one I want the most
You just want me to say it
I don't wanna hold it in no more
I don't wanna play favorites
I don't wanna play, baby
You're the one I want the most
My angel, I'll say it for you
Let it out, just say it, say it
Let me know
