

Redemption

Chlöe

I'm not really big on redemption, mm no no
Thinking I'm'a make an exception, for you you
Body from another dimension, so whoa oh
So gimme everything and then some

Take you to places you ain't never been before
Talking to me crazy outta pocket
I'm exhausted
Tried to drive me crazy, had to park it
I'm exhausted
Gas up lying by the liter
Mm mm talk gets cheaper
Tell me that you love me, you don't mean it
Well me neither

Don't think you're the only one that spinning the block
So bad I'mma be good if you're calling or not
Bad timing what I'm on, don't believe me just watch
I'm good
I'm good

Emptying my cup got me feeling a way
Make sure that you're around if it's one of them days
Who knows I might be game if you willing to play
I know. You know

I'm not really big on redemption, mm no no
Thinking I'm'a make an exception
For you you
Body from another dimension
So whoa oh
So gimme everything and then some (redemption)
