

Baby Girl

Chloe x Halle

They make it look so easy
One day I'm talking to Jesus
Then I was talking to demons, oh
All the sights I've seen, all the sights I've seen
Yeah

Then I step onto the patio, try to listen to the radio
Try to play up on my Casio, even try to call my Romeo, hey
Try so hard to let it go
But today I'm just feeling low, ooh

Baby girl, baby girl, it's your world, baby girl

Do it for the girls, all around the world
Do it for the girls, all around the world
For the love, for the love, for the love
Hey, hey, oh, oh-oh, yeah
You know my life be teasing (Teasing me, teasing me, teasing me
)
Everyday I gotta please them (Pleasing 'em, pleasing 'em, pleas
ing 'em)
While I'm picking up pieces
All the sights I've seen, but I'm still so clean, yeah

Then I step onto the patio, try to listen to the radio
Try to play up on my Casio, even try to call my Romeo, hey
Try so hard to let it go
I'm not there but I'm getting close, ooh

Baby girl, baby girl

Do it for the girls, all around the world
Do it for the girls, all around the world
For the love, for the love, for the love
Hey, hey, oh, oh-oh, yeah

So don't you forget about
The little girl that you met now
The one that's in your spirit
She still got your back, yeah
Don't you let the world take back
All the love that you gave her
This is all her world now
This is all your world now
