

# Thunder

Chloe x Halle

Lightning across the sky  
Beauty that paralyzes, oh I, oh I  
I'm not scared, I wanna try  
You're a storm, I can't deny, oh I, oh I

My baby gone, he got me so high  
Is heaven's door right next door to my heart  
Don't even know what the difference is  
Don't even know what the difference is  
My baby told me that I'm in love  
But no, I'm tripping, did he slip me a drug?  
Don't even know what the difference is  
Can't even tell you what the difference is

Just know I feel that rain, it's coming towards you  
Just know I feel that rain, it's coming towards you  
Feel that rain, it's coming towards you  
Feel that rain, it's coming towards you

Watch it electrify  
Blazes across the sky, oh I, oh I

My baby gone, he got me so high  
Is heaven's door right next door to my heart  
Don't even know what the difference is  
Don't even know what the difference is  
My baby told me that I'm in love  
But no, I'm tripping tripping, did he slip me a drug?  
Don't even know what the difference is  
Can't even tell you what the difference is

Just know I feel that rain, it's coming towards you  
Just know I feel that rain, it's coming towards you  
Feel that rain, it's coming towards you  
Feel that rain, it's coming towards you

Feel that rain, it's coming towards you  
Feel that rain, it's coming towards you  
Feel that rain, it's coming towards you  
Feel that rain, it's coming towards you
