

Up All Night

Chloe x Halle

(Oh)
Till the wee wee hours of the morning
(Oo oo oo oh)
Till the sun spread from the sky I call it dawning
(Oo oo oo oh)
I'll be singing with owls and floating on stars
(Oh)
Flying with the bats and dancing in the dark
(Oh oh oh oh)

Call it whatever you call it
Nearly floating in space and I'm falling
Call it whatever you call it
But when you get your sleep know it'll be
I be working working
I be working working

I'll be up all night
I'll be up all night

Yeah I'll be
I'll be
Late nights no sleep
I'll be poppin' those five hours
Just for an extra five hours
In time to see the sunrise
And still right then I don't close my eyes
Cause I'm working working working
Elbow grease wipe until my hands bleed
Drip ili drip, drip ili drop
And even yes this then you know
The grind don't stop
Singing with owls and floating on stars
Flying with the bats and dancing in the dark
I ain't working, it don't feel like working
But it's working cause while you be here
I'mma be level toppin'

Call it whatever you call it
Nearly floating in space and I'm falling
Call it whatever you call it
But when you get your sleep know it'll be
I be working working
I be working working

I'll be up all night
I'll be up all night

(Oo oo oo oo ah)
