

Afterglow

chokecherry

I stand with you on the ledge
Your arms stretched out, begging right in front of me
If I grab you we'll both fall
Nothing worth the hell I've placed in front of you

In my memories
You look the same in your memory
I'm still to blame for the fate that's
Right in front of me

Longing for another way
Future's slowly slipping out from underneath
Melt me in your afterglow
Nothing close to when you're standing next to me

In my memories
You look the same when you're happy
I'm still to blame for the fate that's
Right in front of me

Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Oh-ah, right in front of me
Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Ah-ah, ah, ah

Heaven, help the animal
I could never catch it, it's right in front of me
In ten years I'll blow it all
Tell me that you'll always be right here

When you're happy
It's all the same when you're happy
I'm still to blame for the fate that's
Right in front of me

Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Oh-ah, right in front of me
Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Ah-ah, ah, ah, right in front of me
Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Woah-oh, right in front of me
Doo, doo, doo-doo
Doo, doo, doo-doo, doo
Ahh

Well I had it in my hand, fading fast
Couldn't bring myself to break it apart
Yeah, I had it in my hand, couldn't last
So, you can take it, you can shove it

In my memories
You look the same when you're happy

I'm still to blame for the fate that's
Right in front of me
