

# Glass Jaw

chokecherry

Feel your anger boil under my skin  
When I fight you, losing is to win  
All your lies and all your half-told truths  
Yeah I love you baby, what's the use?

'Cause I wanna fight  
Don't wanna dance with you  
I wanna fight  
Don't wanna dance with you  
Out in the dark, I come alive with you  
'Cause I wanna fight  
Don't wanna dance with you

Can I sit right down, just for a week?  
I want you to tell me everything  
All the power runs inside your veins  
It all feels the same inside my brain

'Cause I wanna fight  
Don't wanna dance with you  
I wanna fight  
Don't wanna dance with you  
Out in the dark, I come alive with you  
'Cause I wanna fight  
Don't wanna dance with you

I can tell that we're just wastin' time  
Baby when you hit me right  
Hit me right beyond my skin  
I can tell that we're just wastin' time  
Baby when you hit me right  
Hit me right beyond my skin

'Cause I wanna fight  
Don't wanna dance with you  
I wanna fight  
Don't wanna dance with you  
Out in the dark, I come alive with you  
'Cause I wanna fight  
Don't wanna dance with you

I wanna, I wanna, I wanna  
I wanna, I wanna, I  
I wanna, I wanna, I  
I don't wanna dance with you  
I wanna, I wanna, I wanna  
I wanna, I wanna, I  
I wanna, I wanna, I  
I don't wanna dance with you  
Wait too long for you, now  
I don't wanna dance with you  
Way too strong, for you, now  
I don't wanna dance with you

I saw red  
When I looked into your eyes  
I called your name into your breast

I called out for you  
I saw red  
When I looked into your eyes  
You hit me then and I fell apart  
For you
