

Mirror Mirror

chokecherry

Every time I wake up and climb that mountain
Don't know my demon, but she is here with me
She is here with me

Every time I cut loose
I cut my head too
Don't know my demon, but she is here with me
She is here with me

Can't get her off
Can't get her off
Can't get her off

Baby wants to burn it down, down, down, down
If I let her tear me down, down, down, down
May I never come around, down, down, down
May I never come around, down, down, down

Every time I wake up, look in the mirror
Don't recognize her, but she is here with me
She is here with me

Can't get her off
Can't get her off
Can't get her off
Can't get her off

Baby wants to burn it down, down, down, down
If I let her tear me down, down, down, down
May I never come around, down, down, down
May I never come around, down, down, down

I've been sitting wasting my precious time
I've been sitting wasting my precious time
I've been sitting wasting my precious

I've been sitting wasting my precious time
I've been sitting wasting my precious time
I've been sitting wasting my precious time
I've been sitting wasting my precious

I've been sitting wasting my precious time
I've been sitting wasting my precious time
I've been sitting wasting my precious time
I've been sitting wasting my precious
