

I am running for it
Why is it important for you to know?
I'm solo
High up on the mountain
Wanted you to notice, I turned it all
I turned it all around

I won't go back
Don't get me off the track
Never wanted that
Never wanted that

I escape from view
I'll let you wonder
I'm running from you
Nothing left inside me for you to know
I'm alone
Hidden from your prying eyes
Left in silence, lost in time
All goodbye

I won't go back
Don't get me off the track
Never wanted that
Never wanted that

Baby, buy your secrets, sell you peace of mind
I will not tell you when I drive into the night
I, I will buy your secrets, sell you peace of mind
I will not tell you when I drive into the night

Never wanted that
Don't get me off the track
Never wanted that

And there you go
Tapping on the window
Out of mind and out of sight
Catch me on the train tonight
Wanna be where no one knows
Tapping on the window
Take your fate, turn it all around
Let it fall down
Let it fall down
Let it fall down

I won't go back
I won't go back
