### Chokehold

Here we are at the start again, Stagnant once more.  
No movement forward. Arms crossed eyes blank are you still there?

You live your life in the comments section  
Content to destroy from within  
Echo chamber that weakens our power  
Blank faces that say I've heard this before.

We can no longer engage  
Without placing blame or fake outrage

We've just become Each other's worst enemy  
Sharing ideas is not welcome here any longer  
We would rather attack than have each other's back  
It can be better than this, is this how we want it to be?

We can no longer engage  
Without placing blame or fake outrage

Stop our movement from going backward  
Smash the hive. Smash the hive  
More useless preaching to the converted choir  
Destroy the divide. Smash the hive  
We need to make this dangerous again  
And Take our ideas outside of our walls  
No more us vs us it's us vs them  
We need to make this dangerous again  
No more us vs. Us - It's us vs. Them
