

No Shelter

Chokehold

Better life? I want that for you but we are too ignorant and entitled to let that happen
You have sacrificed everything and we have given nothing
Hateful rhetoric about walls that don't mean shit

Where is our compassion where is our love for those in need
Terrified children disposed of in camps like human trash
Parents arrested and interrogated for their sacrifice

What the fuck have we become?
Stop this war
Fuck your walls and fuck your borders
Stop this war on the people.

What the fuck have we become
When we can turn away families in need
When we put children in cages
Are we trying to protect the fucking land we stole
Free from Persecution
Free from poverty
Your so safe in your own little world
And from the wars and the horrors that you see between your shows on the tv
