

Daisy

Choker

It's not coming as simply as I'd like
When I'm speaking, you listen, but don't let me off the hook
Offer perspective before answer
Live beyond your words
Absolutes are momentary
Over every bird is a hand losing grip

Move as if a Gemini
Born Leonardo
Free up on Aquemini
Sun roof Cleo
It be crystal ballin'
Cumulo black tint
It be nether worlding
Heavy metal back when

I was seeing life daisy
Everything daisy
Petal push daisy
Seeing life daisy
Everything daisy
Petal push daisy

To be alive in the sun
All colliding at once
We was diamonds is all
Drink the ocean and run
How far is your house?
Is your father still home?
We should stop at the store
Take advice from the road
Flying bikes through the storm
I couldn't tell if you knew
How I felt about you
Lost a fight with my youth
Had a story to tell
You forgot, but it's cool
Just a memory of memories
Along the spool
You never changed your mind
Perfect compensation like nursing dolls to health
It's not real
But we play for the little ones

I was seeing life daisy
Everything daisy
Petal push daisy
Seeing life daisy
Everything daisy
Petal push daisy
I was seeing life daisy
Everything daisy
Petal push daisy
Seeing life daisy
Everything daisy
Petal push daisy

In my chest there is more
There is color
True to me
Even the clouds are losing sleep
This feeling is
True to me
Strange days
Strange days

I was seeing life daisy
Everything daisy
Petal push daisy
Seeing life daisy
Everything daisy
Petal push daisy
I was seeing life daisy
Everything daisy
Petal push daisy
Seeing life daisy
Everything daisy
Petal push daisy

Glazed sigh
Grazed fine on the Krispy Kreme
It ain't fresh, but it's still sweet
Unfinished floor amongst other things
Level with my means (Level with my means)
Asked me to that thing (Asked me to that thing)
When you know it's not my scene (You know it's not my scene)
Like an extra with no lines (Extra with no lines)
I'd rather not be seen (Rather not be seen)
In the final cut
Striations in our fronts
At the DMV
Thinking this would be the worst place to die
Waiting for eternity
My enhanced state ID
Why I gotta pay to be me?
Why I gotta pay to be me?
Be me
Be me
Be me
Be me

Common grounds has shown me there's a warmer side
I don't see it often
When I look outside, I see all of their lives
Not mine, not mine
Little black kids with a canyon through the side
I hang glide over
When I look outside

I see all of their lives
Not mine, not mine
