

Guava Tea

Choker

Time is of the mind (Oh, oh)
I can't unlearn these forms
I can't forget your sighs
When I spilled the blood of Christ himself

Moving back and forth, I want your support, yeah
Moving back and forth, I want your support, yeah

I'm on baby, so if I was actin' up
It's okay, yeah, yeah
Fly on, baby
I'll meet you where the skies are blank far away

Like a golden Fabergé in a field of mines
Am I worth the boom?
There's no you in I

Sometime it feel like a TED Talk
When I let my thoughts loft
Often rest on less soft
Best case, I might drift off
Damn, she gave the best top
Mostly miss our friendship
I miss lots like Yinka Dare
No more simple stories

No one needs me like I need me
No one needs me like I need me, 'cause
Free the whole block or at least send a letter
Need help from the crowd on my Def Jam vendetta
Wait, that was the sequel, gameplay got better
We keep it moving, et cetera, et cetera
My [?] yeah, yeah, yeah
Shadows racing leaves in the sun (Ooh)

No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
No one needs me like I need me
