

## Jawbreaker

## Choker

Now I'm going to show you  
Before we get started  
How to do two things that are very important  
Number one  
How to

Blow pop with the cape on it  
Safe house I escaped from no place for me  
Sidewalk hot  
Put my face on it let the world hold me  
I let the world hold me

Bomb pop with the fizz  
I can be my own God and I will  
I just feel raw down to my shins  
Wanna feel the rain fresh through my skin  
Running through the plains slave boy zen  
Sea punk zen  
Loose encounters with my past life and what I could've been  
Take me for a spin  
For what I have become is something else entirely  
Surely now we're going under  
Scuba mask skewed views  
It seems we're just alike  
(At least we thought)  
Playing chess in the blind man's room/ (Now we're fools with no light)  
How you smell like fresh produce lil fruity mami boolin in the powder blue jeans  
Acne t-shirt dreamsicle cream  
It's so bright when I need it the least

Talking honeydew  
Sea foam green  
Pom pom pink  
Light orange  
Canary yellow periwinkle beams  
I've never seen the other side of heaven though  
I've never been so close to the centerfold

Love me  
Love me  
Love me  
Love me  
Love me  
Love me  
Love me  
Love me  
I need attention  
I need a lesson taught to me

She say she from the bronx  
But that ass say LA  
Los Angeles air ways pants animate with  
Little damages from yesterday's amateur  
Stunt man accident asking for my boarding pass  
My bad my bad  
Smoking psylocke in the Subaru sleigh now I'm feeling hella avatar Aang lemm  
e check my change pocket

The lady's face twist like tube socks mid wash I'm on it I promise  
Found stashed in the preme wallet holding my guala  
Straight to the airplane why you bugging me darling  
We row 9 right?  
And I'm only on this flight cause I had some down time  
Isn't that ironic?

I'm reeling super fast  
I'm dealing with regrets  
You're better than your past would show  
You're riding on the future  
You're coping with your humor  
You're hiding all your sutures  
Let's get sushi when time allows  
Watch a bad movie  
Cause I like you  
Just don't let it get to your head  
But I like you  
Like you  
Like you
