

# Ghost

Chris August

I was in the corner of a crowded room  
Taking up space like the living do  
In the light of day, I'm waiting in the dark  
For someone like you to see my heart

All I wanna know is  
How'd you even find me?  
When no one ever noticed before  
All I've ever felt is  
The spirit of the lonely  
Guess I'm not a ghost anymore

Used to walk through the world, a drop in the ocean  
Slip through the cracks without even knowing  
Yet, God only knows how I caught your eye  
But you brought me back to life

All I wanna know is  
How'd you even find me?  
When no one ever noticed before  
All I've ever felt is  
The spirit of the lonely  
Guess I'm not a ghost anymore

I was haunted, now I'm human  
All it took was you believing  
Here we are

All I wanna know is  
How'd you even find me?  
When no one ever noticed before  
All I've ever felt is  
The spirit of the lonely  
Guess I'm not a ghost anymore
