

I'm In Love With You

Chris August

This is crazy, unexpected, but it is amazing
It's the very thing that you pray for, been waiting for
Next thing I know you're standing at the door

Now it's open, and you are even more than I was hoping
I waited for the one, and you're my someone right
Through day and night, laughing or fight
I'm staying by your side

Baby, you know that I know that you know it
So maybe it's time to make time now to show it

Right here I wrote a song so I could make it clear
I'm not gonna let another minute pass by
Don't want you to wonder why
So here it is
Baby, I'm in love with you

It's your kindness, you're like a hidden gem, your beauty's timeless
You're everything, my everything, it's me and you
Yeah, it's true, once one is two, now let me follow through

And, baby, I know that you know that I've known it
So maybe it's time, yeah, it's time that I've told it

Right here I wrote a song so I could make it clear
I'm not gonna let another minute pass by
Don't want you to wonder why
So here it is
Baby, I'm in love with you

I know that if it has some worth then it takes some work
So I'm working for you
And I know I gotta put you first to make it last

Baby, I know that you know that I waited
But now the time is right and it feels good to say it

Right here I wrote a song so I could make it clear
I'm not gonna let another minute pass by
Don't want you to wonder why
So here it is
Baby, I'm in love with you

You're amazing, and I'm in love with you
Feels good to say it, oh, I'm in love with you
I'm in love
Ooh, baby, I'm in love with you, with you, with you
