

Lips

Chris August

I must confess
I've said some things
Willing to bet
Has brought you shame

And it's not okay but you said that grace
Is greater than all my mistakes
So now I'm singing

Take my heart
Take my life
Nothing I would not give
For this relationship
From the morning to the night

Oh, your name it is
Forever on my lips
My lips
My lips

I know my heart was a.d.d.
A roller coaster of belief
But there is a path
Where you said the past
Is left with no
Power to last
And now I'm singing

Take my heart
Take my life
Nothing I would not give
For this relationship
From the morning to the night

Oh, your name it is
Forever on my lips
My lips
My lips
Your name
Forever on
My lips
Your name

From my toes to my finger tips
I'm feeling you when I'm singing this
Just know I'm gonna keep your name on my lips

Take my heart
Take my life
Nothing I would not give
For this relationship
From the morning into the night

Oh, your name it is
Forever on my lips
As long as my name is Chris
Never stop singing this

Your name it is
Forever on my lips
