

Muddy Waters

Chris August

I've got trouble of the heart kind
But I'm giving it up to You
I've got trouble of the heart kind
But I'm giving it up to You
Yes I am
Feels like muddy waters
Is what I've been walking through

I took some pills from the doctor
He told me they would wash away my pain
I took some pills from the doctor
He told me they would wash away my pain
But after six months of a trial run
The prescription didn't change anything
Except for some side effects

I need some help from the Father
Won't You come and save Your son
I need some help from the Father
Won't You come and save Your son
I believe that Your life can make it right
And that the healing's already done
I'm gonna play it like it is
