

# Seasons

Chris August

Seasons come and then they go  
Just like some friends I used to know  
But you've been there come rain or shine  
Just like the warm sun doesn't change its mind

You got me dancing like some autumn leaves  
Cool as a summer breeze  
You got me, yeah, you got me  
Falling like the winter snow  
Spring comes and leaves the old  
You got me, yeah, cause I've been

Waiting for the feeling  
More than just a season

To know what's hot  
You gotta know what's cold  
And when it froze  
Had to let it go

Now what I've got is not a season thing  
Cause time can pass and it won't change

You got me dancing like some autumn leaves  
Cool as a summer breeze  
You got me, yeah, you got me  
Falling like the winter snow  
Spring comes & leaves the old  
You got me, yeah, cause I've been

Waiting for the feeling  
More than just a season

Life follows no rules  
It pushes, it pulls  
But then there's you  
Unchangeable, unshakeable love

You got me dancing like some autumn leaves  
Cool as a summer breeze  
You got me, you got me  
Falling like the winter snow  
Spring comes & leaves the old  
You got me, cause I've been

Waiting for the feeling  
More than just a season

From the warm July  
To December nights  
Your love won't change  
It's not a season thing
