

# This Christmas

Chris August

This Christmas...

Every winter  
I watch it come and go  
I see the splendor  
But leave it covered in snow  
I guess somehow I just allowed  
To let my heart grow cold  
One half faded, one half jaded  
But in this burn out I hope

Of all the stars in this December sky  
I need the one that  
Led them to You back then  
Point it out cause, Lord, I'm done with  
All these written wishes  
When all I want is forgiveness  
Jesus be the star  
That leads me back to You this Christmas

Back to You this Christmas  
Back to You...

Break the surface  
Cause I need more than a play  
A Sundays service  
With staged up snow and hay  
I need the Spirit to remind me  
Why You even came  
And to thank You that You're still here  
When we all turned You away

Of all the stars in this December sky  
I need the one that  
Led them to You back then  
Point it out cause, Lord, I'm done with  
All these written wishes  
When all I want is forgiveness  
Jesus be the star  
That leads me back to You this Christmas

Show me to the road  
Cause I'm all packed up to go  
Lord, I'm walking I'm not stopping  
Til I'm face to face with hope

Of all the stars in this December sky  
I need the one that  
Led them to You back then  
Point it out cause, Lord, I'm done with  
All these written wishes  
When all I want is forgiveness  
Jesus be the star  
That leads me back to You this Christmas...
