

You and Me

Chris August

You hunt the moon
And I just sing about it
You light the sun
And I just spin around it

You can take a star
And make it fall just for fun
While I just wish up on it
Knowing you're the one

Who is moving every mountain
While I'm safely standing still
Who is drying up the desert
While my heart is overfilled

And I don't understand it
But I won't take for granted
That even while you're calming every sea
Somehow you still find time for you and me

You paint the clouds
And I'm just flying through 'em
You open up your arms
And now I'm running to 'em

I was just an orphan but lord
Now you call me son
I'm awestruck in your wonder
Knowing you're the one

Who is moving every mountain
While I'm safely standing still
Who is drying up the desert
While my heart is overfilled

And I don't understand it
But I won't take for granted
That even while you're calming every sea
Somehow you still find time for you and me

Yes, Jesus loves me
Yes, Jesus loves me

I know you love me cause you're

Moving every mountain
While I'm safely standing still
Who is drying up the desert
While my heart is overfilled

And I don't understand it
But I won't take for granted
That even while you're calming every sea
Somehow you still find time for you and for me

You and me...
