

# Rain Man

Chris Bandi

I wake up  
I rub the sleep right out of my eyes  
Just my luck  
The birds are singing ain't no cloud in sight  
That perfect forecast on the TV  
It's making it all too clear  
The blue skies outside just remind me  
That she ain't here

So come on, Mr. Rain Man  
Can't take another sunny day  
If you've ever feel your heart break man  
Then you'd understand  
The kinda shape I'm in  
I need rain drops slapping on the top of my roof  
I need the storm clouds pouring down setting the mood  
Can't put it off another day man  
I just need a little rain man  
So come on, Mr. Rain Man

I might be  
Going way out on a limb  
But I need  
A good excuse for saying in  
Cause if I don't start moving on today don't if I ever will  
It's been 75 for two weeks straight  
Ain't that a little overkill

So come on, Mr. Rain Man  
Can't take another sunny day  
If you've ever felt your heart break man  
Then you'd understand  
The kinda shape I'm in  
I need the rain drops slapping on the top of my roof  
I need the storm clouds pouring down setting the mood  
Can't put it off another day man  
I just need a little rain man  
So come on, Mr. Rain Man  
So come on, Mr. Rain Man  
Aw yeah

I need a sad song  
I need a down pour  
I need the wind blowing open that screen door  
Out on the front porch  
I need a good storm  
So what you waiting for

Oh, come on, Mr. Rain Man  
Can't take another sunny day  
If you've ever felt your heart break man  
Then you'd understand  
The kinda shape I'm in  
I need the rain drops slapping on the top of my roof  
I need the storm clouds pouring down setting the mood  
Can't put it off another day man  
I just need a little rain man

So come on, Mr. Rain Man  
Come on, Mr. Rain Man
