

Like I Do Now

Chris Botti

Once we're together, naturally
When I'm not here, and you're not away from me
And we're finally home
I'm gonna kiss you, just like I did
That time the breeze slid through the open door
Then I know, I won't miss you anymore...

Like I do now
Like I do now
Like I do now

Taking the wait as long as I can
Too many days is too hard to stand
So I'm on my way
On an airplane, in the sky
In a taxi
On the Triborough Rail
Comin' in

I wonder if you're sleeping
I want to wake you up
