Chris Brown

Why you're up in here starting drama?  
Beauty got the bottie with a curve like ...  
We can disappear into my ... until tomorrow  
We can go ...  
Think that I should .. hundred bills when you pass me  
It was on my mind girl you don't even got to ask me  
I don't need no bitches I ain't come to do no math  
I just wanna get

I got you baby girl  
So you can relax  
The way you do that  
You know I'm on a mission  
.. I'm trying to get love  
You got a girlfriend you came with  
.. where I'm going girl  
We can go AWOL  
Turn up the phone  
Girl you don't need it  
Nobody is coming ..  
Gil we can go AWOL

I love the way you fit in Dolce and Gabanna  
It makes me wanna get behind it  
.. and just get love  
I got the mister Money  
I'm your super and your doctor  
We can light it up and go .. like a rocket  
Blow in the wind we don't need nobody watching  
We can get AWOL

We're about to .. now  
Let it all .. now  
Ain't no turning around now  
Nobody's gonna know  
Follow me ...  
We can do it anywhere

Baby I'm your ...  
I can try get you to New Orleans  
I ain't trying to beat it up  
I'm trying just massage it  
We can get AWOL
