

# Believer

Chris Brown

See the days are gone and I've been loosing my mind  
I'm crashing I'm running out of time  
Now the way that I perceive things  
Hopin you wont deceive me  
But its just the feeling inside that I had to find a way to find out  
This relationship is about  
Seems like you want to count me out (count me out)  
But you were the one who changed  
Thought it would stay the same but it still remains

Baby I'm a believer  
Pain and the love  
Baby girl I wont either  
Even though you might say both of  
Us need a breather  
Gotta hate it all  
Had to take that fall  
Baby to let you know that  
I'm a believer the reason that you should stay  
Is to be that I need ya  
The way I look at you as if I'm an achiever  
We could  
Love again  
Wanna be ya friend  
We can win I'm a believer

Baby girl sit it down come around and take it straight  
Don't need to end my life girl  
I want you around there's no need to frown  
Girl give your  
Love to me  
I want ya  
I need you  
Every night and day  
Hopin that we stay together  
But can I hold you in my arms  
Thought I was playing  
I'm saying  
Baby girl

I'm a believer  
The pain and the love  
Baby girl I wont either  
Even though you may say both of us  
Need a breather  
Gotta hate it all  
Had to take that fall  
Baby to let you know  
I'm a believer the reason that you should stay  
Is to be that I need ya  
The way I look at you as if I'm an achiever  
We could love again  
Wanna be ya friend  
We can win

Can you stop blaming me for it just this once  
Can you commit to my love  
My hearts breaking down  
Girl you know that I will never leave your side

Baby I'm a believer  
Pain and the love baby girl I wont either  
Even though you might say need a breather  
Gotta hate it all  
Had to take that fall  
Baby to let you know  
I'm a believer the reason that you should stay  
Is to be that I need ya  
The way I look at you as if im an achiever  
We could love again  
Wanna be ya friend  
We can win  
I'm a believer  
I'm a believer  
I'm a believer  
I'm a believer uhhhh oooh ooooh uhahaha
