

## Between The Lines

Chris Brown

Was it something I said  
Was it something I did (oh)  
Looking for an answer  
Cause I don't even know  
Why you're so upset with me  
Girl what is this about  
Them other shawtys  
I don't care about

Baby sit down  
Only when we sexing is when  
I want to hear you yelling out loud  
Countdown  
Backwards from ten now ain't that much better  
Break down  
Every little word  
She said this, he said that  
Don't believe none of them lies

Wasting time  
Fightin over shit that don't even really matter  
Wish I could start a brand new chapter  
I done seen this kind of thing before  
I already know how this story unfolds  
All I wanna do is love you right  
Take my time  
Read between the lines  
Girl (read between the lines)  
Read between the lines  
Girl

Here we go again  
Heard it all before  
It's getting us nowhere fast  
So, let's retrace our steps  
And figure out where we went wrong  
Girl  
Let's talk this through
