

# Bombs Away

Chris Brown

If I want, me ready for,  
If I want, me ready for

I'm a carnivore, natural born killer so I gotta be  
On any damn thing in front of me  
In the club, cause I'm gonna eat tonight  
I'm a gorilla, like drums on my chest so I gotta beat  
When I start to do you know what it means  
You can't leave, not until you battle me  
I know you're out there, somewhere  
I feel you and I smell your fear  
Bust a few shots in the air, come on, come on  
Your body is bout to go up  
I want you to show off  
You pacify time seek [?]  
You have been, so it's time to act  
On the world, coming for you now  
If I want, me ready for,  
If I want, me ready for

Bombs away, bombs away  
I'm coming for you now  
So you better take cover  
Cause I need it and I want ya  
You partying on me cause I'm ready for ya  
Girl I like that  
Yeah you coming ready but I need a little more  
Cause I'm falling right back  
If I want, me ready for

It's getting hot and heavy  
She looking like she want me  
To cut her like a machete  
And I'ma give it to her  
But that's only if you let me  
I'ma let her catch it, but it's only the beginning, yeah  
She ain't into nasty but I ain't mad at all  
But she b-b-b-bad and she running from the law  
Battle when she dancing on me that's how I can tell  
She a gi jane in the bed for real  
I know you're up there somewhere  
I feel you and I smell your fear  
Bust a few shots in the air, come on, come on  
Your body is bout to go up  
I want you to show off  
You pacify time seek [?]  
You have been, so it's time to act  
On the world, coming for you now  
If I want, me ready for,  
If I want, me ready for

Bombs away, bombs away  
I'm coming for you now  
So you better take cover  
Cause I need it and I want ya  
You partying on me cause I'm ready for ya  
Girl I like that

Yeah you coming ready but I need a little more  
Cause I'm falling right back  
If I want, me ready for

It's like I travel to another dimension  
Cause Shawty got my soldiers standing at attention  
I'm like yeah it's the battle of the sexes  
I wrap her legs round my head like a necklace  
It's like it's bombs over Baghdad  
And Shawty ass fat so I'ma bag that  
M-m-mercy, is what you begging for  
I'm standing on the bar screaming  
If I want, me ready for,  
If I want, me ready for  
So hold your glasses up if you need more  
Whole lot of women but I need more  
I got the long sword, like the marine corp  
Let me take a stab at it leave your spleen soar  
I think I'm King Kong, Godzilla  
Go a couple rounds, girl that in Manilla  
Now show me who iller  
And I'll show you a mirror  
You want that fire, I deliver

Bombs away, bombs away  
I'm coming for you now  
So you better take cover  
Cause I need it and I want ya  
You partying on me cause I'm ready for ya  
Girl I like that  
Yeah you coming ready but I need a little more  
Cause I'm falling right back  
If I want, me ready for  
If I want, me ready for  
If I want, me ready for,  
If I want, me ready for.
