Chris Brown

It gets hard to float when you keep adding weight to pull me down  
Used to sail alone, but now the winds are changing on me now  
We wanna but we're scared to go overboard  
Can't see eye to eye every time we're in a storm  
Save our souls we're going down  
No way couldn't be found

Pull us, pull us, the currents tryna to pull us under  
High tide we capsize we blame it on something lunar  
Rogue winds are coming in (we're sinking )  
Secrets are washing out  
If we make it out the storm we're stronger

So we need to move like water water water water (water)  
So we need to move like water water water water (water)  
Too shallow to see underneath  
Too far gone now we're lost at sea  
We need to move like water (water water water)  
Water

All these bridges burn but still the rapids never lose their rage  
All we've learned by now but we're repeating all our old mistakes  
Nowhere left to go, even though it's still a hundred ways  
Can't rely on anyone to help us navigate

Pull us, pull us, the currents tryna to pull us under  
High tide we capsize we blame it on something lunar  
Rogue winds are coming in (we're sinking)  
Secrets are washing out  
If we make it out the storm we're stronger

So we need move like water water water water (like water)  
So we need move like water water water water (water)  
Too shallow to see underneath  
Too far gone now we're lost at sea  
We need to move like water (yeah)  
Water (water)

Water  
Need to love like water  
Ahh  
Water  
Water
