

Countdown

Chris Brown

Lights out, countdown
I want you to take it off right now
It's the countdown, about to wear you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
I want you to take it off right now
It's the countdown, about to wear you out!

I've been trying to get to you miss lady
All up in your house, fuck you on your couch
Take you to the bed I know you lazy
Then we go up and down, you're screaming out that this dick amazing
And you gonna make a nigga wanna cuff you and wanna put me in a cage.
And Imma turn that ass out tonight
And I put all my money on it
I know you know my girl molly, so we're fucking till the morning
You're dirty, watching me put it on your body
Baby let me turn the lights down

Lights out, countdown
I want you to take it off right now
It's the countdown, about to wear you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
I want you to take it off right now
It's the countdown, about to wear you out!

Imma get all up in it miss lady
And I'll be kissing and licking on your body
And you can ride me, cause you know this dick stupid, ain't it?
And Imma roll the red carpet out for that pussy make that pussy famous
And if yo nigga tripping,
Imma chip in and fuck around and make them payments
Girl, what time you want me to pull up to your house
I'll slip in when he step out
He go out partying with his boys
And I'll be partying in your mouth
Ga ga gon' head now kiss him, his breath smelling like liquor
I don't care if you get her, Ima always be that nigga when it's...

Lights out, countdown
I want you to take it off right now
It's the countdown, about to wear you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
I want you to take it off right now
It's the countdown, about to wear you out!

Please don't make it easy
Cause Imma want you.. all night
And you got something to teach me
And baby when I get it, Imma get in it
I'm gonna make love, love!

Lights out, countdown
I want you to take it off right now
It's the countdown, about to wear you out

I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
I want you to take it off right now
It's the countdown, about to wear you out!
