

# Delusional

Chris Brown

(It's a vibe, ain't it  
You gonna grind baby  
Take your time with it  
Baby I don't mind  
It's a vibe, ain't it  
You gonna grind baby  
Take your time with it  
Baby I don't mind)

How we turn this house we live in to a prison  
Guess you wish you never fell in love with me  
Don't know how we got to not sharing a kitchen  
Sometimes I wish that we didn't fall too deep

We lose sleep arguing  
Worst part about it is you never went to bed without me  
And now you always want to be alone

Neither side want to take an L and be the one to blame  
Somehow it's my fault, no problem  
In your eyes, I can see you think that we will never change

Baby maybe we was just delusional  
Too ambitious no consistency  
In the end we were just fools in love  
When we fell it was a free fall, baby

We was just delusional  
We came an hour late, our time has been delayed  
Baby we delusional, delusional

(It's a vibe, ain't it  
You gonna grind baby  
Take your time with it  
Baby I don't mind  
It's a vibe, ain't it  
You gonna grind baby  
Take your time with it  
Baby I don't mind)

We can manage our emotions for a minute  
Before you start subbing me on your IG  
How is it I'm still the same but treated different  
I'm still the nigga that you see on my ID

We lose sleep arguing  
Worst part about it is you never went to bed without me  
And now you always want to be alone

Neither side want to take an L and be the one to blame  
Somehow it's my fault, no problem  
In your eyes, I can see you think that we will never change

Baby, maybe we was just delusional  
Too ambitious no consistency  
In the end we were just fools in love  
When we fell, it was a free fall, baby

We was just delusional  
We came an hour late, our time has been delayed  
Baby we delusional, delusional

Part of me was letting you just play with my mind  
While the other had me thinking that you just needed time  
Probably circle back so much, we keep on pressing rewind  
And I need you to only be mine

Neither side want to take an L and be the one to blame  
Somehow it's my fault, no problem  
In your eyes, I can see you think that we will never change

Oh, baby maybe we was just delusional  
Too ambitious, no consistency  
In the end we were just fools in love  
When we fell it was a free fall, baby

We was just delusional  
We came an hour late, our time has been delayed  
Baby we delusional, delusional

Oh, ooh, yeah, yeah
