

# Die For You

Chris Brown

Murder, murder she wrote  
My blood spills all over the pages  
And my last breath is a crawl  
I say that I love you  
My dying wish, you can, you hold me close?

I'm going six feet underground  
Where you left me  
I'm going deep hope I don't drown  
Cause you're where, babe  
Do you a stone cold killer  
I'm a need a body bag (you pulling on my zipper)

Now I'm floating to the other side  
Before the lies in your eyes  
All these tears are coming down  
Now you realize, you committed a homicide  
Baby you have the gun  
And you pulled the trigger  
One shot put me down  
So now I'm floating on the other side  
For you I do or die

I drink, I smoke, I fly, I die for you (4x)

Baby don't hold back, don't hold back  
It's your chance,  
If you can, let you take my life away  
It's my life in your hands  
Girl, I need mouth to mouth  
Baby, I need CPR

I'm going six feet underground  
Where you left me  
I'm going deep hope I don't drown  
Cause you're where, baby  
Do you a stone cold killer  
I'm a need a body bag (pulling on my zipper)

Now I'm floating to the other side  
Before the lies in your eyes  
All these tears are coming down  
Now you realize, you committed a homicide  
Baby you have the gun  
And you pulled the trigger  
One shot put me down  
So now I'm floating on the other side  
For you I do or die

I drink, I smoke, I fly, I die for you (4x)

Hold on, heavenly father  
Let me get back to my lover  
I wanna hold on  
I die if you wanna leave, girl  
I want to stay here, 'till the end of life (until for me)  
Girl I wanna let the love, let the love

Deep in the clouds tryin' to get her down

Now I'm floating to the other side  
Before the lies in your eyes  
All these tears are coming down  
Now you realize, you committed a homicide  
Baby you have the gun  
And you pulled the trigger  
One shot put me down  
So now I'm floating on the other side  
For you I do or die

I drink, I smoke, I fly, I die for you (4x)
