Talkin' every night  
All my dogs gettin' lit, talkin' every night  
Juicin' my body

I be ridin' through the city, gettin' lit every night  
Baby, if the head good, I'mma run every light  
Man, if the pussy good, I'mma hit it every night  
Man, if that money good, I'mma get it every night  
I be lit every night, out to get every high  
I be whipped every night, I be sippin' every night  
Out the roof every night, off the crew every night  
Out in Louis every night, in the coupe every night  
I spend all my money on it baby, every night  
All these diamonds, they ain't come from singin', every night  
We be too lit, you know we goin' crazy, every night  
Pop a pill, we rock 'n rollin' baby, every night

Ridin' through the city, we be straight, 12 o'clock  
Yeah, all my niggas Gucci, I ain't talkin' 'bout Guwop  
Yeah, all we rock is Gucci, watch me, watch the watch  
Yeah, hit up AOD, tell 'em gon' get 'em molly

Bangin' out the bottle, got me loosed in the Goose  
Baby, you should be the driver cause I'm gon' let it roof  
You a pretty, little lady, fuck the devil outta you  
I'm about to roll the dice, daddy need some new shoes

I be ridin' through the city, gettin' lit every night  
Baby, if the head good, I'mma run every light  
Man, if the pussy good, I'mma hit it every night  
Man, if that money good, I'mma get it every night  
I be lit every night, out to get every high  
I be whipped every night, I be sippin' every night  
Out the roof every night, off the crew every night  
Out in Louis every night, in the coupe every night  
I spend all my money on it baby, every night  
All these diamonds, they ain't come from singin', every night  
We be too lit, you know we goin' crazy, every night  
Pop a pill, we rock 'n rollin' baby, every night

Wanna take your body down, fine little motherfucker  
Want it right now, bitch you know I ain't a sucker  
Think she off that angel dust but I ain't for complainin'  
I know that pussy dangerous but I can't let you win  
She wobble it, wobble it  
She poppin' that pussy, she all on the pole  
Droppin' it, droppin' it  
I'm throwin' this money all on the floor  
What you tryna do in the bedroom?  
Cause we don't be playin' no games  
Cause that pussy be fuckin' my head up  
I gave her everythin'

I be ridin' through the city, gettin' lit every night  
Baby, if the head good, I'mma run every light  
Man, if the pussy good, I'mma hit it every night  
Man, if that money good, I'mma get it every night

I be lit every night, out to get every high  
I be whipped every night, I be sippin' every night  
Out the roof every night, off the crew every night  
Out in Louis every night, in the coupe every night
