Baby, you trippin'  
What's up?  
What you got? A gun?  
Oh!

I been shot  
She the one who scoped me out  
Time to stop  
It was all part of the plot  
Now the sky is fallin' when I call your name (Oh!)  
I gotta have you, let me get it

She so bad, it's irrational  
No good for me, but I have to know  
Get what she want, then she out the door  
No talkin' true  
She's been in my bed and now I'll never be the same (Woo!)

It's toxic when she's tastin' me  
She got poison on her tongue  
When her time is up  
Can't get enough  
That girl just not a keeper  
But I keep on tryna keep her  
And she's way too hard to hold  
Can't crack the code  
But she keeps me wantin' more  
She bad to the bone  
And when her time is up  
Can't get enough  
That girl just not a keeper  
But I keep on tryna keep her (Ooh)

I wanna love you, babe  
(I wanna love you, girl, I wanna love you, girl, I wanna love you)  
I know it's forbidden, baby, oh, Lord  
I took a bite and now the walls are cavin' in (Yeah)  
Oh, yeah

You so bad, it's irrational  
No good for me, but I have to know  
Get what she want, then she out the door  
But I love fuckin' you  
She's been in my bed but now I'll never be the same (Woo!)

It's toxic when she's tastin' me  
She got poison on her tongue  
When her time is up  
Can't get enough

Your love is a catastrophe  
I get the feelin' that you after me  
It's like your soul is a catch to me  
I hate it but I love it when that ass on me (Ooh)  
Your love is a catastrophe (Oh-oh)  
I get the feelin' that you after me
