

**Go**

**Chris Brown**

Just go, just go  
Lose control of it  
Just go, just go  
Party and let's go

Play on player, play on player  
All my girls, it's Friday night and I feel alright  
Play on player, play on player  
The DJ's playing my favourite song tonight so you gotta dance to it

I want you to show off, get that, I know you believe in karma  
Anything you give, you get it right back, so baby take a sip  
I know you like that, we not leaving, this where the party at  
Even if the police come, fuck that, we throwing up where I'm from

We can do it girl just  
Go, go, go  
There you go all in for me just  
Go, go, go, all in when you with me just  
Go, go, go  
If you really wanna go to my crib we can just  
Go, go, go  
Go baby, go baby

I see you girl, taking shot after shot  
Take a little more for me girl, gimme all you got  
If you need anything, if the light's too bright we can turn 'em down  
But please turn up for me baby

I want you to show off, get that, I know you believe in karma  
Anything you give, you get it right back, so baby take a sip  
I know you like that, we not leaving, this where the party at  
Even if the police come, fuck that, we throwing up where I'm from

We can do it girl just  
Go, go, go  
There you go all in for me just  
Go, go, go, all in when you with me just  
Go, go, go  
If you really wanna go to my crib we can just  
Go, go, go  
Go baby, go baby

Just go baby, where the weed at?  
A whole bag of pills but you don't need that  
Sit down girl, talk to me  
I wanna lay you down, I know you need a place to relax  
If we get it girl your heart gon' collapse  
If we don't get it again, you might relapse  
Baby I ain't playing games  
We gon' take it all the way tonight  
Say lady, girl how many licks does it take 'til I get to the centre  
You know babe, you know just what I'm talking 'bout  
Put in your favour, baby whatever you say  
So please don't turn down right now, girl I'm about to eat it

We can do it girl just

Go, go, go  
There you go all in for me just  
Go, go, go, all in when you with me just  
Go, go, go  
If you really wanna go to my crib we can just  
Go, go, go  
Go baby, go baby

Just go, baby we can just go  
All in, baby we can just go  
Baby we can just go, we can just go, just go  
We can just go party, let's go
