

## Goin' At It

Chris Brown

Said I tried to, to spend a day without you  
And it's hard to do, I can't do it  
Maybe it's the things you do, you do  
Huh, it make a nigga go crazy, guess I'm addicted to you, fuck

And I don't, I don't wanna keep lying  
I need a little you and me time  
I wanna lick you, ooh, pussy keep crying  
And the neighbors telling us to keep quiet

Girl, just let go and let this happen  
Close your eyes, feel my magic stick, we keep fucking up these  
mattresses  
And my back got all these scratches, rough sex we'll be practicing  
Love when we goin' at it

With all that ass, you better shake something, you better take  
off your clothes before I get mad  
I need 1 on 1, 1 on 1, quality time, we bump and grinding  
Girl, let me see something, you know that I ain't gon' hold back  
Don't tease me, woman, don't keep it from me, just please me, woman

I don't wanna keep lying, I don't  
I need a little you and me time, me time  
I wanna lick you, ooh, pussy keep crying, woo  
And the neighbors telling us to keep quiet

Girl, just let go and let this happen (yeah, yeah)  
Close your eyes, feel my magic stick, we keep fucking up these  
mattresses (your eyes)  
And my back got all these scratches, yeah, rough sex when we practicing  
Love when we going at it, ooh yeah  
Girl, just let go and let this happen  
Close your eyes, feel my magic stick, we keep fucking up these  
mattresses  
And my back got all these scratches, rough sex when we practicing  
Love when we goin' at it
